	Aboriginal FTE Enrolment	16	9	13	13

ENROLMENT TRENDS

Enrolments at the school continue to grow, with numbers predicted to remain stable for the next few years. The school community believes the current size of the school meets the needs of the local community. There are no plans for the school to expand in size.

STUDENT PROFILE

KPPS students come from rich and diverse cultural backgrounds that represent the broader community all adding depth to the school's learning community. The school still represents its strong Greek and Italian heritage when the surrounding area was market gardens.

- Over 33 different languages spoken at home
- 35% have a language background other than English
- 2.5% of students identify as ATSI
- School Card holders constitute approximately 13% of the school population
- 7% of students have been identified in having a disability across the school with a large number identified with learning difficulties.

2. STAFF

LEADERSHIP & FOCUS TEACHER POSITIONS

- Principal: John Clarke
- Deputy Principal: Amanda Walker
- Coordinator B1: Learning Centre Students with Severe Multiple Disabilities
- Coordinator B1: Numeracy Achievement
- Staff take on other responsibilities for key programs and priorities

CLASSES

Learning Centre: 2 classes
School: 19 classes

TEACHING ROLES

- 21 FTE Classroom teachers (Total 27 classroom teachers)
- 1.0 STEM
- 0.6 EALD/ATSI
- 1.0 Japanese specialist teacher
- 0.6 Performing Arts specialist teacher
- 1.0 PE specialist teacher
- 1.4 Wellbeing teachers

SSO ROLES

Admin	4 admin staff members
Student Support (school)	10 student support staff members
Student Support (unit)	14 student support staff members
Technician	1 ICT technician
Grounds	1 groundsperson
Health Support Officers	7 staff members (part time)
ACEO	.4

OTHER ROLES

- 1 Conductor (disability unit) Principles of Conductive Education
- Pastoral Care Worker 2 days per week

STAFF TEAMS

Staff teams drive the delivery of the curriculum, student learning and general organisational routines at KPPS. Staff work collaboratively to plan, improve our school, team teach, achieve goals, provide feedback and to reflect on success. Some teams also break into sub teams for planning and curriculum development. All teams meet at least weekly and for teachers common NIT lessons are provided.

Teacher teams –

- Early Years
- Primary Years
- Middle Years
- Specialist Team
- Learning Centre

SSO teams –

- Learning Centre
- Student Support
- Administration

3. SCHOOL OPERATIONS

DECISION MAKING

- The school has a decision-making policy and procedures.
- Management of the school is based upon a collaborative model with several groups participating in the decision-making processes. This includes:
 - Leadership Team

- Learning Teams
- Site Improvement Plan Teams
- PAC
- Development teams linked to minor school priorities and activities
- School Governing Council and Sub Committees

MEETINGS

- Teams play a critical role in the development of the school
 - Professional Development sessions are usually held fortnightly after school Tuesdays.
(3:30-4.30pm).
 - Teacher learning teams meet weekly after school on a Wednesday (3:30-5pm).
- PAC meets regularly during the term. Key decisions go directly to staff.
- The Learning Centre team of both teaching staff and SSOs meet every Monday after school.

STAFF COMMUNICATION

- Key staff communication occurs via
 - Learnlink – email
 - MS365 Teams – Key communication occurs through Teams to all staff

PARENT COMMUNICATION

- A weekly update is shared via Skoolbag to parents every Tuesday. The update promotes future events and activities. It is designed to be a simple and efficient update of school events to the wider community.
- Seasaw is used to communicate student learning with parents by all staff. Primary Years classes also use Google Classroom.
- Term overviews and Statements of Intent are sent home at the beginning of every term outlining learning priorities.
- All classes have learning intentions and other key information that is displayed next to classrooms for student and parent information. Statements of Intent are updated fortnightly. Students generate their own Learning Intentions based on both assessment and feedback.
- Parent information is available via Skoolbag.
- Staff email addresses are shared with parents to assist regular communication.

4. PERFORMANCE DEVELOPMENT

The school has a performance development program based on:

- Department for Education guidelines
- The school's Site Improvement Plan reflects both Department for Education & Partnership priorities
- Plans are developed collaboratively as a part of teams or sub teams. Teams then support each other to grow and develop as professionals.
- Meetings with teams occur during the year to reflect on progress. Team meetings are used to review success and update plans. Feedback is provided by leadership team members and peers.
- A variety of T&D opportunities are available for all staff members.
- Performance Development is seen as a collaborative and supportive process.

5. KEY PROGRAMS

LEARNING CENTRE – for Students with Severe Multiple Disabilities

The school has a unit for students with severe multiple disabilities. Learning Centre students are all aligned with a peer class thus taking part in some lessons with their mainstream peers and are a part of all school events.

Enrolment in the Learning Centre is via the central Special Class Placement Process. Further information is available from the Learning Centre Coordinator.

CONDUCTIVE EDUCATION

The Unit has a specialist program based on the Principles of Conductive Education, which is supported by a Hungarian trained Conductor. Conductive Education is the core pedagogy for the unit. Families move from interstate for their child to be enrolled in the program.

Conductive Education programs are also provided for mainstream students. A small group of students enrol at the school to participate in Conductive Education one day per week. The Principles of Conductive Education are woven into all aspects of unit programs.

INFORMATION AND COMMUNICATION TECHNOLOGIES

The school has a strong ICT focus. Previously the school was a part of the Microsoft Partners in Learning program and therefore has a strong focus on 21st Century Learning Design. 21CL has been mapped against the Australian Curriculum General Capabilities and used to report student attitudes and capabilities to learning in reports.

The school has an extensive range of hardware that includes Chrome Books, laptops, iPads and other devices to ensure all students have access to key technologies. The network was upgraded in 2020. All students 3-7 are provided with a school Chromebook. F-2 students have access to iPads.

All teaching areas have large touch screen televisions.

The school has a variety of agreements for software. This can vary from year to year depending on need.

STUDENT SUPPORT

The school has a dynamic program to support both students with disabilities and learning difficulties in mainstream classes.

The focus teacher and support staff use a variety of different programs and strategies to improve learning outcomes for students. Support is provided in classrooms in collaboration with class teachers. Improved learning outcomes are the responsibility of all staff and so a team approach is used to support student learning and needs.

Programs are negotiated with staff, students and parents and documented in the student's OCOP or Learning Plan. A large number of students have plans.

Staff have completed extensive training to support ASD students. Due to the skills of our staff the school has developed a reputation for successfully supporting ASD students.

Key programs include Toosmart Macqlit and Minilit.

Coordination of support programs across the school occurs at Student Review Team meetings. Key school personnel and region support staff (including; psychologists, disability coordinators, attendance counsellors, social workers, speech pathologists and interagency staff) work together to review staff and parent concerns around both learning and social issues. Strategies are then discussed and (where possible) support put into place to improve student learning outcomes. Our SRT meetings are currently under review.

WALKER LEARNING APPROACH

The Walker Learning Approach is an Australian designed teaching and learning approach (pedagogy) that authentically personalises learning and is developmentally and culturally appropriate. Learning is real, relevant and meaningful for all children regardless of their age, culture, family context, socioeconomic background or geographical position. The WLA has been developed over 20 years using an action research model. It places the child at the centre and utilises developmental psychology and biology alongside cultural and environmental influences as its pedagogical platform and the basis for practical application across the Australian setting.

The key principles that guide WLA practice are that:

- All teaching is intentional.
- Not all children are ready to learn the same thing at the same time in the same way.
- Children's interests are used not for the interest alone, but as a catalyst for engagement.
- Children's interest, culture and context are respected and used as a springboard to facilitate further understandings and skill development in all areas of learning including literacy, numeracy, the sciences, the arts, language, and cognition, social, psychological and emotional development.

- Child development is used as a basis for guiding practices as well as the principles of culture, community and family.
- Learning is personalised and uses the children's interests alongside additional exposure and concepts and experiences for children to explore their world, concepts, skills and environment.
- The process of learning and skill acquisition is valued - not just, or always the focus of the end product.
- Intrinsic (not extrinsic) motivation is valued and embedded in practice.
- The adult / child relationship is highly valued and the relationship itself is a scaffold in the learning alongside the child.
- Relationship with child, family and community are integral components of the approach.
- The WLA does not require topics or themes but does include opportunities for teachers to include specific concepts.
- Child development is used as a basis for guiding practice.
- Relationships are developed and deepened through a range of key practices including Focus Children
- Learning is real, relevant and meaningful and is contextual to the child, family and community

CONNECTED CURRICULUM

Students and teachers have been involved in co-designing a Connected Curriculum approach across the whole school. By implementing this approach to our planning this year we are looking to provide connections for students so they are able to transfer their learning in an interdisciplinary format. For example concepts learned in Science can be applied to HASS, English can be used to communicate ideas which are directly related to technological ideas, coding can be used to solve a geographical problem etc. By uniting areas of the Australian Curriculum under big questions and their subsequent big ideas we enable students to use critical and creative thinking to provide deeper, richer learning experiences across many areas of the curriculum. By linking these big ideas to dates/events that are important to the local and wider global community we can provide greater community engagement and purpose. Our Connected Curriculum is currently focusing on the United Nations Sustainable Development Goals.

THINKING SKILLS CONTINUUM

SHIP methodologies are an important part of our teaching at KPPS.

The school has developed a 'Thinking Skills Continuum' with explicit skills to be taught across all year levels (e.g. Debono's 6 Hats, Tony Ryan's Thinkers Keys etc).

The continuum has been built into our unit planner and should be used as a part of our Connected Curriculum. The planner also includes a number of templates to assist staff.

EXTENSION PROGRAMS

A variety of extension programs are regularly offered. Programs are provided by staff, parents and external providers. A few are fee paying activities. Programs offered are dependent upon parent and staff expertise and time.

STUDENT WELL BEING

The school provides a strong learning and support program for students in relation to their social and emotional well being.

This includes:

- The Joy Project – based on the work of Amanda Gore and her book 'Joy is an Inside Job'. All students participate in lessons in the PEARLS room. Classes engage in a number of themed activities each term. The Joy Action Team runs a number of activities in the yard and at times, there's whole school special events.
- PEARLS lessons
- Pastoral Care Worker
- Positive Education teacher
- Social skills programs
- Circle Time/class meetings – for classes to provide feedback, receive feedback about school issues and to discuss key topics in relation to well being. Circle Time creates an opportunity for classes to understand where a student's 'emotional thermometer' is at, at any given time.
- Restorative questions provide a key foundation for the resolution of all issues.
- To support emotional intelligence and thus grow confident and robust students, key optimism programs are taught across all teams.

AFTER SCHOOL SPORT

KPPS has a strong after school sports program. This program is coordinated by a staff member in collaboration with our Governing Council. The school averages 16-18 sports teams per year.

Sports vary from year to year depending on the availability of volunteer coaches.

Current sports include:

- Soccer (played on Saturday mornings at West Lakes)
- Basketball (played at St Clair)
- Netball
- T-Ball
- Kanga Cricket

STUDENT AGENCY

The school provides a variety of opportunities for student leadership, engagement and opportunities to have a voice in the direction of their school. This includes a variety of Student Led, Staff Supported 'Student Action Teams'.

Leaders

The student body has 5 school leaders elected by all students during term one. The student leaders coordinate and organise a variety of activities and events during the year.

Team Captains

Sport Team leaders are elected during term two from middle year's students. These leaders then coordinate a whole school encouragement competition during term three leading up to sports day at the end of the term.

Class Meetings

Regular meetings focus on local, national and global issues as a part of our Walker Learning Approach. With a goal to support students to become aware of their world. Students are empowered to lead meetings and take responsibility for decisions.

Student Action Teams

A variety of action teams are established each year. Around 70 students participate in teams with the assistance of staff members. Teams include –

- Multi Media Action Team
- Connected Curriculum Action Team
- STEM Action Team
- Joy Action Team
- Community Involvement Action Team
- Sports Action Team
- Grounds Action Team
- Sustainability Action Team

MAJOR EVENTS

To provide a diverse, challenging and engaging curriculum (and learning environment) for students, the following key school events happen regularly at KPPS.

- KIDMAN'S GOT TALENT – A student organised talent contest over a period of weeks with the final held on the last day of term two.
- SPORTS DAY – Held on the last day of term three.
- KIDMAN CELEBRATES – End of year performance. Currently held at the Christian Family Centre on the last Wednesday evening of the year.
- KIDMANATHON – Student initiated event.

6. CURRICULUM

AUSTRALIAN CURRICULUM

The school currently teaches, assesses and reports in all areas of the Australian Curriculum.

There is a strong focus on literacy and numeracy. Other subject areas are taught as a part of the Connected Curriculum or as a Specialist NIT subject.

SPECIALIST SUBJECTS

Japanese

Japanese was introduced to the school in 1996. Foundation students participate in one 45 minute Japanese lesson whilst other classes are involved in the Japanese language course for 90 minutes per week.

Physical Education

Students are offered a wide choice of activities and sports, SAPSASA involvement in athletics and out of school sports such as basketball, soccer, cricket and softball. Specialist NIT PE lessons occur for all classes. Coordination programs take place for younger students. Our Hub SSO facilitates out of school sports in collaboration with the Governing Council..

Performing Arts

All students participate in a 45-minute performing arts program that includes; dance, drama, music and performance skills.

Social & Emotional Wellbeing

All classes participate in a 45 minute Wellbeing lesson each week. Lessons connect elements of the Health curriculum, Positive Education and the schools Joy project.

ASSESSMENT & REPORTING

Assessment

The school uses MARKiT and REPORTiT (online tools) to collect student achievement data and to then electronically collate the data and report to parents. Regular tracking of student achievement occurs during the year and collaborative data is reviewed in either teams or sub teams.

All staff are required to track the progress of a cohort of students that represents the diversity of the class. Learning Plans are developed for these students and their progress tracked. This includes tracking the needs of students who need to be stretched.

All students with learning difficulties also have clearly documented learning plans. The school uses a continuing review process. Online tools like NAPTracker, PATTracker and MARKiT assist the collation and interpretation of data.

REPORTING TO PARENTS

Monitoring student progress is continuous so teachers place a high priority in meeting with parents on a regular basis. Teachers formally meet with parents;

Term One – Acquaintance Night

Term Three- Formal student led interviews at the start of the term (not long after reports have been distributed)

Parents can also request interviews at the end of terms one and four.

Reports are sent home at the end of terms two and four. The school uses online tools to both collect student achievement data and to report to parents. A consistent approach is used across the school.

Ongoing feedback is provided to parents via Seesaw and regular communication with parents occurs via email or Seesaw.

8. SCHOOL FACILITIES

The school is divided into several key teaching areas based around learning teams.

MAIN BUILDING

Double storey brick building (constructed 1967)

- Ground floor - Administration Area including Staffroom, Japanese Room, Meeting room, Learning Support office and the Unit for Students with Severe Multiple Disabilities with a lift at the end of the building. The Learning Centre was refurbished during 2021.
- Upstairs – Middle Years, 6 classrooms and a number of flexible learning areas refurbished during 2018 as a part of STEMWorks.
- Attached to the main building is a large work area and kitchen used by both the Learning Centre and OSHC, Wellbeing room, covered verandas, canteen and sports store room.

SOUTHERN UNIT

Large 1979 constructed red brick open plan unit.

- Early Years - The unit has been divided into a variety of team teaching learning areas. This includes 8 key teaching areas, flexible learning areas, offices, storage, a kitchen and music room. The unit was refurbished as a part of STEMWorks during 2018.
- Outside learning areas will be constructed during 2021.

PORTABLES

2 Transportable Buildings

- Primary Years – 5 large teaching areas. Both buildings were internally refurbished during 2021.

HALL

- Multipurpose hall includes storage for sports equipment, stage, kitchen and disabled toilet.

THE HUB

- Large learning space including a technology area, office and storage areas.

GROUNDS

- The school has outstanding grounds that include a variety of play, relaxation, shade and learning areas. This includes a wheelchair accessible Liberty Swing.

9. GOVERNING COUNCIL

The school has a well-informed and energetic Governing Council. Members are involved in the decision-making process regarding the management of the school.
